NURSING –LEVEL-III

TVET CURRICULUM

**Based on the December 2021 Version III
Occupational Standard (OS)**

Jan, 2022
Addis Ababa

Preface

The reformed TVET-System is an outcome-based system. It utilizes the needs of the labor market and occupational requirements from the world of work as the benchmark and standard for TVET delivery. The requirements from the world of work are analyzed and documented – taking into account international benchmarking – as occupational standards (OS).

In the reformed TVET-System, curricula and curriculum development play an important role with regard to quality driven TVET-Delivery. Curricula help to facilitate the learning process in a way, that trainees acquire the set of occupational competences (skills, knowledge and attitude) required at the working place and defined in the occupational standards (OS).

This curriculum has been developed by a group of experts from different Regional TVET-Authorities, ministry of health and health science colleges based on the occupational standard of 2021. This curriculum show how to transform the occupational requirements as defined in the respective occupational standard.

The curriculum development process has been actively supported and facilitated by the Ministry of Health and Ministry of Labor & skill

TVET-Program Design

1.1. TVET-Program Title: Nursing Level III

1.2. TVET-Program Description

The Program is designed to develop the necessary knowledge, skills and attitude of the learners to the standard required by the occupation. The contents of this program are in line with the occupational standard. Learners who successfully completed the program will be assessed in institutional level with competencies elaborated in the respective OS.

The prime objective of this training program is to equip the learners with the identified competences specified in the OS. Students are therefore expected to provide motivated, competent, and Compassionate Caring Service, Apply Infection Prevention Techniques and Workplace OHS, Provide Basic First Aid and Emergency response, Prepare and maintain beds, Provide Basic Nursing Care, Provide wound care, Administer and Monitor Range of Medication, Provide Palliative Care and Maintain Mortuary Service, Provide comprehensive family planning service, Provide youth, adolescent and reproductive health service, Perform community mobilization and health education, Apply Computer and Mobile Technology, Apply Basic Health Statistics and survey, Apply 5S procedure in accordance with the performance criteria described in the OS.

1.3. TVET-Program Learning Outcomes

The expected outputs of this program are the acquisition and implementation of the following units of competence

[HLT NUR3 01 1221](#) Provide motivated, competent, and Compassionate Caring Service

[HLT NUR3 02 1221](#) Apply Infection Prevention Techniques and Workplace OHS

[HLT NUR3 03 1221](#) Provide Basic First Aid and Emergency response

[HLT NUR3 04 1221](#) Prepare and maintain beds

[HLT NUR3 05 1221](#) Provide Basic Nursing Care

[HLT NUR3 06 1221](#) Provide wound care

[HLT NUR3 07 1221](#) Administer and Monitor Range of Medication

[HLT NUR3 08 1221](#) Provide Palliative Care and Maintain Mortuary Service

[HLT NUR3 09 1221](#) Provide comprehensive family planning service

[HLTNUR3 10 1121](#) Provide youth, adolescent and reproductive health service

[HLT NUR3 11 1121](#) Perform community mobilization and health education

[HLT NUR3 12 1221](#) Apply Computer and Mobile Technology

[HLT NUR3 13 1221](#) Apply Basic Health Statistics and survey

[HLT NUR3 14 1221](#) Apply 5S procedure

1.4. Duration of the TVET-Program

The Program will have duration of **1671hours** including in school and cooperative training time.

s.no	Unit competency	In school training		Cooperative training	Total hours	Remarks
		Theory	Practical			
	Provide motivated, competent, and Compassionate Caring Service	40			40	
	Apply Infection Prevention Techniques and Workplace OHS	32	24	40	96	
	Provide Basic First Aid and Emergency response	64	60	60	184	
	Prepare and maintain beds	24	36	39	99	
	Provide Basic Nursing Care	160	72	156	388	
	Provide wound care	22	22	39	83	
	Administer and Monitor Range of Medication	96	42	156	294	
	Provide Palliative Care and Maintain Mortuary Service	20	16	39	75	
	Provide comprehensive family planning service	32	34	39	105	
	Provide youth, adolescent and reproductive health service	32		39	71	
	Perform community mobilization and health education	60		60	120	
	Apply Computer and Mobile	44	56		100	

	Technology					
	Apply Basic health statistics and survey	40	40		80	
	Apply 5S procedure	16	8	8	32	
	Total	586	410	675	1671	

N.B. The cooperative training can be managed according to the context of the training giving institution.

1.5. Qualification Level and Certification

Based on the descriptors elaborated on the Ethiopian National TVET Qualification Framework (NTQF) the qualification of this specific TVET Program is “**Level III**”.

The learner will not awarded any certificate before completion of all the modules that are designed for the exist in level IV

1.6. Target Groups

Any citizen **without disability** who meets the entry requirements under items 1.7 and capable of participating in the learning activities is entitled to take part in the Program.

1.7 Entry Requirements

The prospective participants of this program are required to possess the requirements or directive of the Ministry of Labor & skill.

1.8 Mode of Delivery

This TVET-Program is characterized as a formal Program on middle level technical skills. The mode of delivery is co-operative training. The TVET-institution and identified companies have forged an agreement to co-operate with regard to implementation of this program. The time spent by the trainees in the industry will give them enough exposure to the actual world of work and enable them to get hands-on experience.

The co-operative approach will be supported with school-based lecture-discussion, simulation and actual practice. These modalities will be utilized before the trainees are exposed to the industry environment.

1.9. TVET-Program Structure

Unit of Competence	Sequences of Learning modules		Unit title	Duration (In Hours)
	Code	Title/ For Module name		
HLT NUR3 01 1221 Provide motivated, competent, and Compassionate Caring Service	HLT NUR3 M01 0122	Providing motivated, competent, and Compassionate Caring Service	- Professionalism and ethical practice - Apply humanistic care to clients - Effective health care communication - Respectful care for clients - Performing with legal and ethical framework - Providing motivated and competent service	40hr
HLT NUR3 12 1221 Apply Computer and Mobile Technology	HLT NUR3 M02 0122	Applying Computer and Mobile Technology	- Starting computer, system information and features. - Navigation and manipulation of desktop environment. - Existing Health technologies. - Functions of technology. - Evaluation of new or upgraded technology performance	40hrs

<u>HLT NUR3 02 1221</u>	Apply Infection Prevention Techniques and Workplace OHS	<u>HLT NUR3 M03 0122</u>	Applying Infection Prevention Techniques and Workplace OHS	• Causes of Disease • Infection prevention techniques • Cleaning of environmental surfaces • Limiting Contamination • Cleaning environmental surfaces • Assessment and Control of Risk and Hazard • Establishment and Maintenance of Participative Measures	96hr
<u>HLT NUR3 04 1221</u>	Prepare and maintain beds	<u>HLT NUR3 M04 0122</u>	Preparing and maintaining beds	• bed making • Making bed ready for occupancy or continued occupancy • Collecting and managing Linen Stock at User-Locations	99hrs
<u>HLT NUR3 05 1221</u>	Provide Basic Nursing Care	<u>HLT NUR3 M05 0122</u>	Basic nursing care	• Causes of diseases. • Introducing to human body structure and function • Clients need to individualize nursing care. • Safe manual handling • Managing patient safety and comfort	388hrs

				• Providing hygienic care for patients • Patient transportation	
<u>HLT NUR3 06 1221</u>	Provide wound care	<u>HLT NUR3 M06 0122</u>	Providing wound care	• Assessment and identification of wound • Contribute to planning appropriate care for the client with a wound • Evaluation of outcomes of nursing care	83hrs
<u>HLT NUR3 07 1221</u>	Administer and Monitor Range of Medication	<u>HLT NUR3 M07 0122</u>	Administering and Monitoring Range of Medication	• Pharmacology in the field of nursing practice. • Administration of medications • Monitoring and evaluation of client response to administered medication	294hrs
<u>HLT NUR3 081221</u>	Provide Palliative Care and Maintain Mortuary Service	<u>HLT NUR3 M081221</u>	Providing Palliative Care and Maintaining Mortuary Service	• Palliative approach. • Needs of a person requiring end of life care. • Care after death • Bodies at mortuary • Preparing bodies for viewing • Maintaining the mortuary environment	75hrs

			- Releasing bodies to funeral director/ conveyors - Security requirements		
<u>HLT NUR3 091221</u>	Provide comprehensive family planning service	<u>HLT NUR3 M09 0122</u>	Providing comprehensive family planning service	- Family planning services - Promoting family planning services - Providing family planning services - Monitoring of family planning services	105hrs
<u>HLTNUR3 10 1121</u>	Provide youth, adolescent and reproductive health service	<u>HLTNUR3 M10 0122</u>	Providing youth, adolescent and reproductive health service	- Adolescent and youth RH services - Promoting adolescent and youth RH services - RH service package - Registration and documentation RH records	71hrs
<u>HLT NUR3 03 1221</u>	Provide Basic First Aid and Emergency response	<u>HLT NUR3 M11 0122</u>	Providing Basic First Aid and Emergency response	- Assessment and identification of client’s condition - first aid service - Preparation, evaluation and action in an emergency - Communicating details of the incident	140hrs

				• Referring client requiring further care • Evaluation of own performance	
<u>HLT NUR3 11 1121</u>	Perform community mobilization and health education	<u>HLT NUR3 M12 0122</u>	Performing community mobilization and health education	• Health education and communication • Training of model families • Planning and Undertaking advocacy on identified health issues	120hrs
<u>HLT NUR3 13 1221</u>	Apply Basic Health Statistics and survey	<u>HLT NUR3 M3 0122</u>	Applying Basic Health Statistics and survey	• Application of health survey • Data collection • Compilation, interpretation and utilization of health data • Reports • Intervention measures	80hrs
<u>HLT NUR3 14 1221</u>	Apply 5S procedure	<u>HLT NUR3 M14 0122</u>	Apply 5S procedure	• Quality system • Sorting needed items from unneeded • Setting workplace in order • Shinning work area • Standardization of activities	48hrs

			Sustaining 5S system	
--	--	--	--	--

The time duration (Hours) indicated for the module should include all activities in and out of the TVET institution

1.10 Institutional Assessment

Two types of evaluation will be used in determining the extent to which learning outcomes are achieved. The specific learning outcomes are stated in the modules. In assessing them, verifiable and observable indicators and standards shall be used.

The **formative assessment** is incorporated in the learning modules and form part of the learning process. Formative evaluation provides the trainee with feedback regarding success or failure in attaining learning outcomes. It identifies the specific learning errors that need to be corrected, and provides reinforcement for successful performance as well. For the teacher, formative evaluation provides information for making instruction and remedial work more effective.

Summative Evaluation the other form of evaluation is given when all the modules in the program have been accomplished. It determines the extent to which competence have been achieved. And, the result of this assessment decision shall be expressed in the term ‘competent or not yet competent’.

Techniques or tools for obtaining information about trainees’ achievement include oral or written test, demonstration and on-site observation.

1.11 TVET Teachers Profile

The teachers conducting this particular TVET Program are **A Level** and have satisfactory practical experiences or equivalent qualifications.

LEARNING MODULE -01	
TVET-PROGRAMME TITLE: Nursing –Level III	
MODULE TITLE: Providing Motivated, Competent and Compassionate services	
MODULE CODE: HLTNUR3 M01 0122	
NOMINAL DURATION: 40hrs	
MODULE DESCRIPTION: This module covers the knowledge, skills and attitude required to effectively perform professional duties and responsibilities with motivated, competent, compassionate, respectful and caring manner by applying basic principles of professional, ethical and legal aspects of the profession	
LEARNING OUTCOMES At the end of the module the learner will be able to: • Apply professionalism and ethical practice • Apply humanistic care to clients • Demonstrate effective health care communication • Provide respectful care for clients • Perform with legal and ethical framework • Provide motivated and competent service	
MODULE CONTENTS: Unit One:- Identifying and executing ethical principles and issues 1.1. Basic Ethical Concepts and Principles 1.1.1 Definition of Ethics 1.1.2 Principle of Health Care Ethics 1.1.3 Principles of Health Ethics for Midwifery 1.1.4 Professionalism in massage therapy 1.2. Professional code of conduct 1.3. Professional Value 1.4. Ethical values Unit 2: Apply Humanistic Care To Clients. 2.1 Concepts and Principles of CRC 2.1.1 Compassionate, respectful and caring (CRC)	

- 2.1.2 Principles of compassionate care
- 2.1.3 Principles of Respectful Care
- 2.2 The benefits of CRC/MCC
- 2.3 Understanding Patients' concern

Unit Three. Effective Health Care Communication

3.1 Proper Health Care Communication

- 3.1.1 Health care Communication
- 3.1.2 Having good communication with patients/clients helps them in three main ways.
- 3.1.3 Tips to establish rapport:
- 3.1.4 Principles of communication
 - 3.1.5 Effective interaction in health system
 - 3.1.6 Compassionate therapeutic instructions
 - 3.1.7 Summary Quality of Compassionate care
 - 3.1.8 Summary Elements of compassionate care
 - 3.1.9 Compassion and concern for a patient
 - 3.1.10 Non-violent communication
 - 3.1.11 Inappropriate Ways of Non-verbal Communication

3.2 Informing, educating and counseling clients

Unit Four: Respectful care

- 4.1. Client's knowledge, values, beliefs and culture into the planning and Delivery care
- 4.2. Provide accurate information for decision making
- 4.3. Engaging a patient in health care for decision making
- 4.4. Communicating complete and unbiased information
- 4.5. Establishing collaboration in health care system
- 4.6. Patient's rights to access care Patient's bill of rights

Unit Five: Legal and ethical framework

- 5.1 . Legislation and Common Laws
- 5.2 Confidentiality of Individual's Record
- 5.3 Ethical Issues and Ethical Dilemma
- 5.4 Training for health care providers
- 5.5 Publicizing Patient Privacy Ethical Standards

Learning Methods:
• Interactive lecture • Group discussion • Role-play • Case-study • Group assignment • Individual assignment
Assessment Methods: Continuous (70%), Final (30%)
• Continuous assessments (quiz, assignment, tests etc.). • Oral questioning • Final written exam

Assessment Criteria

Unit One: Identifying and executing ethical principles and issues

- Explain Ethical principles and issues of the profession
- Identify and execute Professional code of conducts
- Recognize and demonstrate Professional values
- Evaluate and maintain ethical principles

Unit Two: Identifying and executing Professional code of conducts

- Describe Concepts and Principles of CRC
- Explain Principles of Compassionate, respectful and caring (CRC)
- Describe the benefits of CRC/MCC
- Identify Patients' concern

Unit Three: Effective health care communication

- Define Health care Communication
- Describe Principles of communication
- Explain Elements of compassionate care
- Describe Non-violent communication
- Explain inappropriate Ways of Non-verbal Communication
- Demonstrate Informing, educating and counseling clients

Unit Four: Respectful care for clients

- Evaluate Client's knowledge, values, beliefs and culture in the delivery of Health care
- Provide accurate information for decision making
- Explain about complete and unbiased information
- Describe Patient's rights to access care and Patient's bill of rights

Unit Five: Legal and ethical framework

- Describe Legislation and Common Laws
- Maintain Confidentiality of Individual's Record
- Identify Ethical Issues and Ethical Dilemma

- Identify, recognize and report unethical conduct

LEARNING MODULE 02	
TVET-PROGRAMME TITLE: Nursing Level - III	
MODULE TITLE : Applying Computer and Mobile Health Technology	
MODULE CODE : HLT NUR3 M02 0122	
NOMINAL DURATION : 100Hours	
MODULE DESCRIPTION : This module aims to provide the trainees with the knowledge, skills and right attitude required to use new or upgraded technology. The rationale behind this unit emphasizes the importance of constantly reviewing work processes, skills and techniques in order to ensure that the quality of the entire business process is maintained at the highest possible level through the appropriate application of new technology.	
LEARNING OUTCOMES At the end of the module the learner will be able to: • Start computer, system information and features. • Navigate and manipulate desktop environment. • Identify the existing Health technologies. • Apply the functions of technology. • Evaluate new or upgraded technology performance.	
MODULE CONTENTS: Unit One: Computer, system information and features 1.1. Introduction to Computer basics 1.2. Ergonomic requirements 1.3. Occupational Health and Safety (OHS) 1.4. Computer basic functions and features 1.5. Customize desktop configuration. UNIT-TWO: Installing basic computer applications 2.1. Installing basic computer applications 2.2. Computer Software Installation. Unit Three: The existing Health technologies 3.1. Computer operating systems	

3.2. Operating System Components

3.3 Responsibilities of operating system

Unit Four: the functions of technology

4.1. Mobile/Smart phones and tablets

4.2. Functions of technology

Unit Five: Evaluate new or upgraded technology performance

. 5.1. Features of new or upgraded equipment

5.2. Environmental considerations

5.3. Sources of information

5.4. Feedback

LEARNING METHODS:

- Lecturing and discussion
- Demonstration
- Video show

ASSESSMENT METHODS:((Continuous 70%,Final 30%)

- Interview
- Written test
- Observation/Demonstration with oral questioning

ASSESSMENT CRITERIA;

Unit One: Computer, system information and features

- Describe Computer basics
- Explain ergonomic requirements
- Occupational Health and Safety (OHS)
- Describe computer basic functions and features
- Customize desktop configuration.

UNIT-TWO: Installing basic computer applications

- Describe about installing basic computer applications
- Implement Computer Software Installation.

Unit Three: The existing Health technologies

- Understand computer operating systems
- Explain operating System Components
- Categorize responsibilities of operating system

Unit Four: the functions of technology

- Elaborate Mobile/Smart phones and tablets
- Explain Functions of technology

Unit Five: Evaluate new or upgraded technology performance

- Describe features of new or upgraded equipment
- Environmental considerations
- Identify sources of information Feedback

LEARNING MODULE -03	
TVET-PROGRAMME TITLE: Nursing Level III	
MODULE TITLE: Applying Infection Prevention Techniques and Workplace OHS	
MODULE CODE: HLTNUR3 M03 0122	
NOMINAL DURATION: 96 Hours	
MODULE DESCRIPTION: This module aims to provide the trainees with the knowledge, skill and right attitude required for health workers to comply with infection control policies and procedures. All procedures must be carried out in accordance with current infection control guidelines to ensure the workplace is safe and with out risk to the health of employees, clients and/or visitors.	
LEARNING OUTCOMES At the end of the module the learner will be able to: • Identify Causes of Disease • Apply infection prevention techniques • Limit Contamination • Clean environmental surfaces • Assess and Control Risk and Hazard • Establish and Maintain Participative Measures	
MODULE CONTENTS: Unit one: Causes of Diseases 1.2 Definition of terms 1.3 Causes of infection 1.4 Infection cycle/chain Unit Two: Infection prevention techniques 2.1 Essential elements of infection prevention 2.2 Standard precaution 2.3 Transmission Based Precaution 2.4 Cleaning 2.5 Infectious waste management 2.6 Personal protective equipment (PPE)	

2.7 Demonstrate Hand washing

Unit Three: Limiting Contamination

- 3.1. Demarcating and maintaining clean and contaminated zones
- 3.2. Keeping records, materials and medicaments in a clean zone
- 3.3. Keeping contaminated instruments and equipment in contaminated zone

Unit Four: Cleaning environmental surfaces

- 4.1. Definitions of Key Terms
- 4.2. General Principles for Cleaning
- 4.3. Wearing Personal protective equipment (PPE)
- 4.4. Removing dust, dirt and physical debris from work surfaces
- 4.5. 4.5. Cleaning work surfaces
- 4.6. 4.6. Drying work surfaces
- 4.7. 4.7 Replacing surface covers
- 4.8. 4.8. Maintaining and storing equipment

Unit Five: Assessing and Controlling of Risk and Hazard

- 5.1. Organizational procedures for hazard identification and control of risks.
- 5.2. Identification of all hazards at the planning, design and evaluation stages
- 5.3. Developing and maintaining hazard risk control measures
- 5.4. Identifying inadequacies in existing risk control measures
- 5.5. Protocols for care following exposure to blood or other body fluids

Unit Six: Establishing and Maintaining Participative Measures

- 6.1. Participative processes in accordance OHS legislation, regulations, and standards
- 6.2. Participative arrangement
- 6.3. Dealing with Issues of participation and consultation
- 6.4. Dealing with Issue with Consultation
- 6.5. Employee Engagement
- 6.6. Providing Information about the outcomes of participation and consultation
- 6.7. Establish and monitoring Systems for keeping OHS records

Learning Methods:

• Interactive lecture • Group discussion • Demonstration • Group assignment • Individual assignment
Assessment Methods: Continuous (70%), Final (30%)
• Continuous assessments (quiz, assignment, tests etc.). • Oral questioning • Skill check out • Final written exam
Assessment Criteria Unit One. Causes of Diseases • Define terms associated with infection • Describe causes of infection • Describe Infection cycle/chain Unit Two: Infection prevention techniques • Determine essential elements of infection prevention • Describe transmission Based Precaution • Describe Cleaning • Apply Infectious waste management • Demonstrate wearing Personal protective equipment (PPE) Unit Three: Limiting Contamination • Identify clean and contaminated zones • Keep records, materials and medicaments in a clean zone • Keep contaminated instruments and equipment in contaminated zone Unit Four: Cleaning environmental surfaces • Definitions of Key Terms • Apply general Principles for Cleaning • Demonstrate Wearing Personal protective equipment (PPE)

- Direct Removing dust, dirt and physical debris from work surfaces
- Direct cleaning work surfaces
- Direct drying work surfaces
- Direct Replacing surface covers
- Manage Maintaining and storing equipment

Unit Five: Assessing and Controlling of Risk and Hazard

- Determine procedures for hazard identification and control of risks.
- Apply identification of all hazards at the planning, design and evaluation stages
- Apply developing and maintaining hazard risk control measures
- Identify inadequacies in existing risk control measures
- Identify protocols for care following exposure to blood or other body fluids

LEARNING MODULE -04	
TVET-PROGRAMME TITLE: Nursing –Level III	
MODULE TITLE: Preparing and Maintaining Beds	
MODULE CODE: HLTNUR3 M04 0122	
NOMINAL DURATION: 99hrs	
MODULE DESCRIPTION: This module aims to provide the trainees with the knowledge, skills and attitude required to apply bed making and cleaning practices to a range of ‘beds’ to ensure that clients can safely occupy a clean bed	
LEARNING OUTCOMES At the end of the module the learner will be able to: • Prepare area for bed making • Make bed • Leave bed ready for occupancy or continued occupancy • Collect and manage Linen Stock at User-Locations	
MODULE CONTENTS: Unit one: Preparation for Bed making 1.1. equipment used for bed making 1.2. Adjusting height of the bed 1.3. Cleaning the bed and the surrounding 1.4. Checking the bed linen Unit Two: Making bed 2.1. Maintain client’s dignity and privacy 2.2. Striping the bed linen 2.3. Removing clinical waste and linen 2.4. Cleaning the bed 2.5. Comforting the patient in bed 2.6. Handling reusable clean bed linen 2.7. Cleaning Mattresses and pillows 2.8. Performing all types of bed making Unit Three: Leaving bed ready for occupancy or continued occupancy 3.1 Applying brakes	

3.2 Making the bed ready for occupancy

3.3 Reporting Damaged and/or faulty beds, equipment, mattresses, pillows and lines

3.4 Cleaning and retuning cleaning materials

Unit Four: - Manage Linen Stock at User-Locations Collecting soiled linen

4.1 Collecting soiled linen

4.2 Transporting soiled linen

4.3 Identifying and reporting hazard

4.4 Re-stocking linen

4.5 Rotating linen stock

4.6 Returning old stock for reprocessing

4.7 Requisitioning linen to the pre-determined quantity levels

4.8 Maintaining storage and security of linen

4.9 Maintaining linen stock records

Learning Methods:

- Interactive lecture
- Group discussion
- Demonstration
- Group assignment
- Individual assignment

Assessment Methods: Continuous 70%, Final 30%

- Continuous assessments (quiz, assignment, tests etc.).
- Oral questioning
- Skill check out
- Final written exam

Assessment Criteria

Unit one: Preparation for Bed making

- List equipment used for bed making
- Explain about adjusting height of the bed
- Clean the bed and the surrounding
- Describe about checking the bed linen

Unit Two: Making bed

- Maintain client's dignity and privacy
- Explain on stripping the bed linen
- Describe on removing clinical waste and linen
- Explain bed cleaning
- Demonstrate comforting the patient in bed
- Handle reusable clean bed linen
- Explain on cleaning Mattresses and pillows
- Perform all types of bed making

Unit Three: Leaving bed ready for occupancy or continued occupancy

- Demonstrate applying brakes
- Be ensure making the bed ready for occupancy
- Report damaged and/or faulty beds, equipment, mattresses, pillows and lines
- Control cleaning and retuning cleaning materials

Unit Four: - Manage Linen Stock at User-Locations Collecting soiled linen

- Control collecting soiled linen
- Control transporting soiled linen
- Explain identifying and reporting hazard
- Describe re-stocking linen
- Describe rotating linen stock
- Control returning old stock for reprocessing
- Requisite linen to the pre-determined quantity levels
- Maintain storage and security of linen
- Maintain linen stock records

LEARNING MODULE -05	
TVET-PROGRAMME TITLE: Nursing -Level III	
MODULE TITLE: Providing Basic nursing care	
MODULE CODE: HLTNUR3 M05 0122	
NOMINAL DURATION: 388Hrs	
MODULE DESCRIPTION: This module aims to provide the trainees with the knowledge, skills and attitude of required to perform basic nursing care in health facilities and community services.	
LEARNING OUTCOMES At the end of the module the learner will be able to: • Differentiate human body structure and function • Identify causes of diseases • Identify clients need to individualize nursing care. • Apply safe manual handling • Ensure patient safety and comfort • Provide hygienic care for patients • Perform patient transportation	
MODULE CONTENTS: Unit One: Introducing to human body structure and function 1.1. Basic concept of human anatomy and physiology 1.2. Structure and function of skeletal system 1.3. Structure and function of muscular system 1.4. Structure and function of nervous system 1.5. Structure and function of endocrine system 1.6. Structure and function of cardiovascular systems 1.7. Structure and function of respiratory system 1.8. Structure and function of digestive system 1.9. Structure and function of urinary systems 1.10. Structure and function of reproductive organs 1.11. Anatomy and Physiology of head, Eye, Ear, Nose and Throat (HEENT) 1.12. Anatomy and physiology of the immune system	

1.13. Fluid and electrolyte balance

1.14. Acid base balances

Unit two: Causes of Diseases

2.1 Causes of disease

2.2 Infectious disease

2.3 Basic components of disease transmission

2.4 Structure, Function and Multiplication of Microorganisms

2.4.1 Prokaryotes and eukaryotes

2.4.2 Bacteria

2.4.3 Virus

2.4.4 Rickettsia and Chlamydia

2.4.5 Mycoplasma, actinomycetes,

2.4.6 Fungi

2.4.7 Protozoa

2.4.8 Helminths

2.4.9 Parasitology

2.4.10 Immunology

Unit Three: Identifying clients need to individualize nursing care

3.1. Basic concept of nursing care

3.2. History of nursing

3.3. Nursing theories and models

3.4. Level of skill development

3.5. Identifying materials for basic nursing care

3.6. Purpose of basic nursing care

3.7. Therapeutic communication

3.8. Caring for the patient care unit

3.9. Cleaning patient unit

3.10. Ensuring ventilation and lighting of the patient room

3.11. Collecting patient specimen

3.12. Feeding a helpless patient

3.13. Applying cold and heat application

3.14. Following appropriate aseptic techniques

Unit Four: Minimize risk of injury

- 4.1 Body mechanics
- 4.2 Basic concept of safe manual handling
- 4.3 Manual handling equipment
- 4.4 Body posture and handling techniques
- 4.5 Safe work practice
- 4.6 Load and un load packs

Unit Five: Managing patient safety and comfort

- 5.1. Taking patient's vital signs
- 5.2. Applying cotton rings
- 5.3. Applying foot-board
- 5.4. Applying pillows
- 5.5. Applying air rings
- 5.6. Applying bed-cradle
- 5.7. Adjusting side rails of beds
- 5.8. Applying sand bag
- 5.9. Applying splint
- 5.10. Applying fracture board
- 5.11. Applying back rest

Unit Six: Providing Hygienic Care for Patients Giving bed bath

- 6.1. Giving tub bath
- 6.2. Giving back care
- 6.3. Giving sits bath
- 6.4. Giving mouth care
- 6.5. Giving bed pan and urinals
- 6.6. Giving perennial care
- 6.7. Giving morning, afternoon and evening care
- 6.8. Giving pediculosis treatment
- 6.9. Giving Hair shampoo

Unit seven : Performing Patient Transportation

- 7.1. Identifying transportation requirement
- 7.2. Selecting transportation equipment
- 7.3. Equipment to assist client movement
- 7.4. Patient Dangling

7.5.	Patient positioning
7.6.	Ambulating a patient
7.7.	Lifting a patient in bed
7.8.	Moving a patient from bed to stretcher
7.9.	Moving a patient from stretcher to bed
7.10.	Moving a patient from bed to chair
7.11.	Moving a patient from chair to bed
Learning Methods:	
• Interactive lecture • Group discussion • Demonstration • Group assignment • Individual assignment	
Assessment Methods: Continuous 70%, Final 30%	
• Continuous assessments (quiz, assignment, tests etc.). • Oral questioning • Skill check out • Final written exam	

Assessment Criteria

Unit One: Introducing to human body structure and function

- Explain basic concept of human anatomy and physiology
- Describe structure and function of skeletal system
- Describe structure and function of muscular system
- Describe structure and function of nervous system
- Describe structure and function of endocrine system
- Describe structure and function of cardiovascular systems
- Describe structure and function of respiratory system
- Explain Structure and function of digestive system
- Explain Structure and function of urinary systems
- Explain Structure and function of reproductive organs
- Explain Anatomy and Physiology of head, Eye, Ear, Nose and Throat (HEENT)
- Explain Anatomy and physiology of the immune system

Unit two: Causes of Diseases

- Describe causes of disease
- Identify infectious disease
- Explain basic components of disease transmission
- Describe structure, Function and Multiplication of Microorganisms

Unit Three: Identifying clients need to individualize nursing care

- Explain basic concept of nursing care
- Describe Nursing theories and models
- Identify materials for basic nursing care
- Explain purpose of basic nursing care
- Demonstrate therapeutic communication
- Practice cleaning patient unit
- Demonstrate ventilation and lighting of the patient room
- Practice in collecting patient specimen
- Demonstrate feeding a helpless patient
- Demonstrate cold and heat application
- Describe appropriate aseptic techniques

Unit Four: Minimize risk of injury

- Describe body mechanics
- Explain basic concept of safe manual handling
- Describe manual handling equipment
- Describe body posture and handling techniques
- Demonstrate safe work practice
- Show how to load and unload packs

Unit Five: Managing patient safety and comfort

- Practice to take patient's vital signs
- Apply cotton rings
- Apply foot-board
- Apply pillows
- Apply air rings
- Apply bed-cradle
- Adjust side rails of beds
- Apply sand bag
- Apply splint
- Apply fracture board
- Apply back rest

Unit Six: Providing Hygienic Care for Patients Giving bed bath

- Practice giving tub bath
- Practice giving back care
- Practice giving sits bath
- Practice giving mouth care
- Practice giving bed pan and urinals
- Practice giving perennial care
- Practice giving morning, afternoon and evening care
- Practice giving pediculosis treatment
- Practice giving Hair shampoo

Unit Seven. Performing patient transportation

- Identify transportation requirement
- Select transportation equipment

- Identify equipment to assist client movement
- Demonstrate patient dangling
- Patient positioning
- Ambulate a patient
- Lift a patient in bed
- Move a patient from bed to stretcher
- Move a patient from stretcher to bed
- Move a patient from bed to chair

LEARNING MODULE -06	
TVET-PROGRAMME TITLE: Nursing –Level III	
MODULE TITLE: Providing wound care	
MODULE CODE: HLTNUR3 M06 0122	
NOMINAL DURATION: 83hrs	
MODULE DESCRIPTION: This module aims to provide the trainees with the knowledge, skills and attitudes of the principles of infection prevention, in relation to wound care processes in a variety of health care contexts. This will include assisting wound assessment and contemporary wound care working with the wound management health care team.	
LEARNING OUTCOMES At the end of the module the learner will be able to: • Describe the basic concept of wound • Identify types of wound • Identify wound dressing material • Describe wound debridement • Describe wound dressing • Describe wound healing process • Describe factors affecting wound healing	
MODULE CONTENTS: Unit One: Wound assessment and identification 1.1 Basic concept of wound 1.2 Type of wound 1.3 Wound dressing 1.4 wound Assessment 1.5 Wound debridement 1.6 Phases of wound healing 1.7 Factors affecting Wound healing Unit Two: Wound care plan	

- 2.1 Wound care plan with patient/family
- 2.2 Holistic approach of wound care
- 2.3 Client comfort needs plan
- 2.4 Potential impact of wound on client and/or family

Unit Three: Implementing wound care

- 3.1 Informing the patient or relatives
- 3.2 Client cooperation
- 3.3 Wound care procedure requirement
- 3.4 Patient comfort
- 3.5 Privacy and dignity
- 3.6 Aseptic techniques
- 3.7 Wound management
- 3.8 Waste disposal techniques
- 3.9 Documentation

Unit Four: Evaluate Wound Care

- 4.1 Client involvement
- 4.2 on-going progress report
- 4.3 Client progress/wound healing progress

Learning Methods:

- Interactive lecture
- Group discussion
- Demonstration
- Group assignment
- Individual assignment

Assessment Methods: Continuous 70%), Final 30%

- Continuous assessments (quiz, assignment, tests etc.).
- Oral questioning
- Skill check out
- Final written exam

Assessment Criteria

Unit One: Wound assessment and identification

- Describe basic concept of wound
- List types of wound
- Apply wound dressing
- Undertake wound Assessment
- Explain wound debridement
- Describe Phases of wound healing
- Identify factors affecting Wound healing

Unit Two: Wound care plan

- Prepare wound care plan with patient/family
- Apply holistic approach of wound care
- Identify Client comfort needs plan
- Identify Potential impact of wound on client and/or family

Unit Three: Implementing wound care

- Provide information for the patient or relatives
- Facilitate client cooperation
- Follow wound care procedure requirement
- Maintain Patient comfort
- Maintain Privacy and dignity
- Apply aseptic techniques
- Apply wound management
- Apply waste disposal techniques
- Undertake documentation

Unit Four: Evaluate Wound Care

- Involve clients
- Clarify on-going progress report
- Explain client progress/wound healing progress

LEARNING MODULE -07	
TVET-PROGRAMME TITLE: Nursing -Level III	
MODULE TITLE: Administering and monitoring range of medication	
MODULE CODE: HLTNUR3 M07 0122	
NOMINAL DURATION: 294Hrs	
MODULE DESCRIPTION: This module aims to describe the knowledge, skills and attitude required of enrolled nurses to administer, monitor and evaluate medications and their effectiveness for clients within a health environment	
LEARNING OUTCOMES At the end of the module the learner will be able to: • Apply pharmacology in the field of nursing practice. • Minimize potential risk to the safe administration of medications • Prepare a medications • Perform medications administration • Monitor and evaluate client response to administered medication	
MODULE CONTENTS: Unit One: pharmacology in nursing 1.1 Basic concept of pharmacology 1.2 Pharmaco-dynamics 1.3 Pharmacokinetics 1.4 Classification of drugs 1.5 Adverse reactions of drug 1.6 Pharmaceutical dosage forms and system of measurement 1.7 Dosage calculations 1.8 Drugs standards and nursing management 1.9 Drugs affecting the gastrointestinal system 1.10 Anti - inflammatory drugs 1.11 Drugs act on respiratory system 1.12 Drugs act on cardiovascular system	

- 1.13 Drugs act on the renal system
- 1.14 Drugs act on endocrine system
- 1.15 Drugs act on the nervous system
- 1.16 Drugs act on the musculoskeletal system
- 1.17 Drug that act on integumentary system
- 1.18 Drug that act on EENT system
- 1.19 Chemotherapy of infectious diseases
- 1.20 Cancer chemotherapy
- 1.21 Pregnancy drug category and classification
- 1.22 Describing fluids and minerals
- 1.23 Essential drugs list in Ethiopia

Unit Two: Safe medication administration

- 2.1 Checking expiate date
- 2.2 Medication chart
- 2.3 Common contraindications and adverse reactions
- 2.4 Checking allergies

Unit Three: Medication preparation

- 3.1 Common terminology associated with drug, fluid and electrolytes
- 3.2 Medication preparation
- 3.3 Forms of medication
- 3.4 Site of injections
- 3.5 Route of administration
- 3.6 Principles of medication administration
- 3.7 Potential risk related with medication administration
- 3.8 Storing & handling of medication
- 3.9 Delivery of drug doses

Unit Four: Medication administration

- 4.1 The rights of medication administration
- 4.2 Administering Oral medication
- 4.3 Administering intra-dermal medication
- 4.4 Administering subcutaneous medication
- 4.5 Administering intravenous medication
- 4.6 Administering intravenous infusion

4.7 Administering blood transfusion
4.8 Applying topical medication
Unit Five: Monitoring and evaluating client response to administered medication
5.1 Monitoring client responses
5.2 Managing adverse reaction
5.3 Medication errors
5.4 Documentation
Learning Methods:
• Interactive lecture • Group discussion • Demonstration • Group assignment • Individual assignment
Assessment Methods: Continuous 70%, Final 30%
• Continuous assessments (quiz, assignment, tests etc.). • Oral questioning • Skill check out • Final written exam

Assessment Criteria

LO1. Apply pharmacology in the field of nursing practice

Unit One: pharmacology in nursing

- Describe basic concept of pharmacology
- Describe pharmaco-dynamics
- Explain pharmacokinetics
- Describe classification of drugs
- Explain adverse reactions of drug
- Describe Pharmaceutical dosage forms and system of measurement
- Explain dosage calculations
- Explain drugs standards and nursing management
- List drugs affecting the gastrointestinal system
- Describe Anti - inflammatory drugs
- List drugs act on respiratory system
- Describe Drugs act on cardiovascular system
- Describe Drugs act on the renal system
- Describe Drugs act on endocrine system
- Describe Drugs act on the nervous system
- Describe Drugs act on the musculoskeletal system
- List drugs that act on integumentary system
- Explain Drug that act on EENT system
- Explain Chemotherapy of infectious diseases
- Explain cancer chemotherapy
- Explain pregnancy drug category and classification
- Describe fluids and minerals
- List Essential drugs list in Ethiopia

Unit Two: Safe medication administration

- Check expiate date
- Explain medication chart
- Explain common contraindications and adverse reactions
- Describe methods to check allergies

Unit Three: Medication preparation

- Explain terminologies associated with drug, fluid and electrolytes
- Explain medication preparation
- Explain forms of medication
- Show site of injections
- Show route of administration
- Describe principles of medication administration
- Describe potential risk related with medication administration
- Describe storing & handling of medication
- Describe delivery of drug doses

Unit Four: Medication administration

- Describe the rights of medication administration
- Demonstrate administering Oral medication
- Demonstrate administering intra-dermal medication
- Demonstrate administering subcutaneous medication
- Demonstrate administering intravenous medication
- Demonstrate administering intravenous infusion
- Demonstrate administering blood transfusion
- Demonstrate applying topical medication

Unit Five: Monitoring and evaluating client response to administered medication

- Monitor client responses
- Manage adverse reaction
- Avoid medication errors
- Prepare documentation

LEARNING MODULE -08	
TVET-PROGRAMME TITLE: Nursing –Level III	
MODULE TITLE: Providing Palliative Care and Maintain Mortuary Service	
MODULE CODE: HLTNUR3 M08 0122	
NOMINAL DURATION: 75hrs	
MODULE DESCRIPTION: This module describes the knowledge, skills and attitude required for a mortuary worker to maintain the day-to-day operation of a hospital or forensic mortuary involving the receipt and release of deceased persons, preparing deceased persons for viewing and maintaining the mortuary environment..	
LEARNING OUTCOMES At the end of the module the learner will be able to: • Identify and apply palliative approach to care. • Identify needs of a person requiring end of life care. • Provide care after death • Receive bodies at mortuary • Prepare bodies for viewing • Maintain the mortuary environment • Release bodies to funeral director/ conveyors • Follow security requirements	
MODULE CONTENTS: Unit One: Palliative care approach 1.1. Basic concept of palliative and hospice care. 1.2 Identifying physiological changes 1.3 Assessing client using palliative principles and approach 1.4. Pain management and quality of life 1.5. Formulating lifestyle choices and plan of care 1.6 Planning multidisciplinary palliative care Unit Two: End of life care. 2.1. Death and dying 2.2. Legal and ethical issues during dying care 2.3. Supporting person, families and care givers 2.4. End of life care	

LO3. Care after death

- 3.1 Standard precautions during care of body
- 3.2 Dignity and respect of dead body
- 3.3 Postmortem care
- 3.4 Cleaning the mortuary environment
- 3.5 Bereavement support

Unit Four: Receiving bodies at mortuary

- 4.1. Dead body identification with records
- 4.2. Body to morgue
- 4.3. Legal requirements
- 4.4. Body store

Unit Five: Dead bodies for viewing

- 5.1 Preparing and presenting body for viewing
- 5.2. Lines of communication with key personnel
- 5.3 Empathy to bereaved family and friends

Unit Six: Mortuary environment

- 6.1. Cleaning mortuary environment
- 6.2. Waste disposal standard
- 6.3. Consumable and stock inventory

Unit Seven: Funeral director/ conveyors

- 7.1. Internal and external personnel for funeral release
- 7.2 Documentation

Unit Eight: Security requirements

- 8.1. Safeguarding evidence or potential evidence of dead body
- 8.2. Security procedures in mortuary environment

Learning Methods:

- Interactive lecture
- Group discussion
- Demonstration
- Group assignment
- Individual assignment

Assessment Methods: Continuous 70%, Final 30%

- Continuous assessments (quiz, assignment, tests etc.).
- Oral questioning
- Skill check out
- Final written exam

Assessment Criteria

Unit One: Palliative care approach

- Describe basic concept of palliative and hospice care.
- Identify physiological changes
- Assess client using palliative principles and approach
- Describe pain management and quality of life
- . Formulating lifestyle choices and plan of care
- Plan multidisciplinary palliative care

Unit Two: End of life care.

- Describe death and dying
- Describe legal and ethical issues during dying care
- Help supporting person, families and care givers
- Explain end of life care

LO3. Care after death

- Explain standard precautions during care of body
- Describe dignity and respect of dead body
- Explain postmortem care
- Describe cleaning the mortuary environment
- Explain bereavement support

Unit Four: Receiving bodies at mortuary

- 4.5. Describe dead body identification with records
- 4.6. Explain body to morgue
- 4.7. Identify legal requirements
- 4.8. Explain body store

Unit Five: Dead bodies for viewing

- 5.1 Explain preparing and presenting body for viewing
- 5.2. Describe lines of communication with key personnel
- 5.3 Describe empathy to bereaved family and friends

Unit Six: Mortuary environment

- Explain about cleaning mortuary environment
- Describe waste disposal standard
- Describe consumable and stock inventory

Unit Seven: Funeral director/ conveyors

7.1. Describe internal and external personnel for funeral release

7.2 Undertake documentation

Unit Eight: Security requirements

- Explain safeguarding evidence or potential evidence of dead body
- Describe security procedures in mortuary environment

LEARNING MODULE -09

TVET-PROGRAMME TITLE: Nursing Level-III

MODULE TITLE: **Providing Comprehensive Family Planning Service**

MODULE CODE: **HLT NUR3 09 0122**

NOMINAL DURATION: **105hrs**

MODULE DESCRIPTION: This module aims to provide the trainees with the knowledge, skills and attitudes required for planning, promoting, providing, monitoring and evaluating comprehensive family planning services.

LEARNING OUTCOMES

At the end of the module the learner will be able to:

- Describe and Plan family planning services
- Promote family planning services
- Provide family planning services
- Monitor family planning services

MODULE CONTENTS:

Unit one: Family planning services

- 1.1. Definition
- 1.2. Basic component of comprehensive family planning
- 1.3. Modern and traditional family planning methods
- 1.4. Resource mapping
- 1.5. Eligibility
- 1.6. Calculating number of expected target group for family planning Practice
- 1.7. Developing a plan of action to reach eligible

Unit Two: Promoting family planning services

- 2.1. Communicating with influential community representatives and voluntaries
- 2.2. Undertaking community mobilization
- 2.3. Implementing family planning practice promotion and education
- 2.4. Sustaining family planning practice promotion and education
- 2.5. Considering individual client needs on promoting family planning health services

Unit Three: Providing family planning services

- 3.1. Family planning counseling
 - 3.1.1. Informed and Voluntary Decision Making and Informed Consent
- 3.2. Providing Short Acting Family Planning Methods

- 3.2.1. Natural Family Planning Methods
- 3.2.2. Providing Combined Oral Contraceptives
- 3.2.3. Providing Progestin-Only Injectable
- 3.2.4. Providing Implants

Unit Four: Monitoring family planning services

- 4.1. Collecting, sustaining and updating family planning services data
- 4.2. Utilize HMIIS standards for registration of FP related activities
- 4.3. Report family planning activities to the concerned higher bodies
- 4.4. Monitor family planning practice

Learning Methods:

- Interactive lecture
- Group discussion
- Demonstration
- Role play
- Simulation
- Group assignment
- Individual assignment

Assessment Methods: Continuous 70%), Final 30%

- Continuous assessments (quiz, assignment, tests etc.).
- Oral questioning
- Skill check out
- Final written exam

Assessment Criteria

Unit one: Family planning services

- Define Family planning
- Explain basic component of comprehensive family planning
- Explain modern and traditional family planning methods
- Explain resource mapping
- Describe eligibility
- Calculate number of expected target group for family planning Practice
- Develop a plan of action to reach eligible

Unit Two: Promoting family planning services

- Explain communication with influential community representatives and voluntaries
- Explain community mobilization
- Implementing family planning practice promotion and education
- Describe about sustaining family planning practice promotion and education
- Explain individual client needs on promoting family planning health services

Unit Three: Providing family planning services

- Explain family planning counseling
 - ✓ Informed and Voluntary Decision Making and Informed Consent
- Describe Short Acting Family Planning Methods
 - ✓ Natural Family Planning Methods
 - ✓ Providing Combined Oral Contraceptives
 - ✓ Providing Progestin-Only injectables
 - ✓ Providing Implants

Unit Four: Monitoring family planning services

- Describe about collecting, sustaining and updating family planning services data
- Explain utilizing HMIIS standards for registration of FP related activities
- Report family planning activities to the concerned higher bodies
- Monitor family planning practice

LEARNING MODULE 10	
TVET-PROGRAMME TITLE: Nursing Level-III	
MODULE TITLE: Providing Adolescent, Youth and Reproductive Health	
MODULE CODE: HLT NUR3 10 0122	
NOMINAL DURATION : 71 Hours	
MODULE DESCRIPTION: This module aims to provide the trainees with the knowledge, skills and attitudes required to plan, promote and provide adolescent and youth friendly reproductive health service	
LEARNING OUTCOMES At the end of the module the learner will be able to: • Plan adolescent and youth RH services • Promote adolescent and youth RH services • Provide RH service package • Register and document RH records	
MODULE CONTENTS: Unit One: Planning adolescent and youth RH services 1.1. History, concepts, definitions, terminologies, components of RH 1.2. Eligible and target groups for RH 1.3. Resource Mapping 1.4. Developing action plan Unit Two: Promoting adolescent and youth RH services 2.1. Improving RH service seeking behavior 2.2. Undertaking community mobilization and Communicating with influential community representatives and voluntaries 2.3. Providing and sustaining RH service 2.4. Supporting RH problems in line with individual needs for changing unhealthy behavior 2.5. Preventing gender based violence and harmful traditional practices Unit Three: Provide Reproductive Health Service Pack-Age 3.1. Barriers to RH service utilization 3.2. Diagnose and manage sexual transmitted infections (STIs) 3.3. Recommended treatment for urethral discharge 3.4. Undertake AYRH Follow up	

3.5. Counseling and follow up for STI

Unit four:- Registering and documenting RH records

4.1 Collecting and updating RH events timely on the basis of HMIS guideline

4.2 Utilizing HMIIS standards for registration of RH related activities

4.3 Reporting RH services

Learning Methods:

- Interactive lecture
- Group discussion
- Role play
- Group assignment
- Individual assignment

Assessment Methods: Continuous 70%, Final 30%

- Continuous assessments (quiz, assignment, tests etc.).
- Oral questioning
- Final written exam

Assessment Criteria

Unit One: Planning adolescent and youth RH services

- Explain concepts, definitions, terminologies, components of RH
- Describe eligible and target groups for RH
- Describe resource Mapping
- Develop action plan

Unit Two: Promoting adolescent and youth RH services

- Describe RH service seeking behavior
- Undertake community mobilization and Communicate with influential community representatives and voluntaries
- Explain providing and sustaining RH services
- Explain supporting RH problems in line with individual needs for changing unhealthy behavior
- Describe about preventing gender based violence and harmful traditional practices

Unit Three: Provide Reproductive Health Service Pack-Age

- Describe barriers to RH service utilization
- Diagnose and manage sexual transmitted infections (STIs)
- Describe recommended treatment for urethral discharge
- Explain on undertaking AYRH Follow up
- Describe counseling and follow up for STI

Unit four:- Registering and documenting RH records

- Explain about collecting and updating RH events timely on the basis of HMIS guideline
- Describe HMIIS utilization standards for registration of RH related activities
- Report RH services

LEARNING MODULE -11	
TVET-PROGRAMME TITLE: Nursing -Level III	
MODULE TITLE: Providing first aid and emergency responses	
MODULE CODE: HLTNUR3 M11 0122	
NOMINAL DURATION: 140 Hrs	
MODULE DESCRIPTION: This module aims to describe the knowledge, skills and attitude required to recognize and respond to life threatening emergencies using basic life support, provide first aid response, management of casualty(s), the incident and other first aider, until the arrival of medical or other assistance.	
LEARNING OUTCOMES At the end of the module the learner will be able to: • Assess and identify client's condition • Provide first aid service • Prepare, evaluate and act in an emergency • Communicate details of the incident • Refer client requiring further care • Evaluate own performance	
MODULE CONTENTS: Unit One:- Assess and identify client's condition Basic concept of first aid 1.1. Definition of terms 1.2. Basic principles of first aid 1.3. Assessing and Minimizing hazards 1.4. Minimizing risk 1.5. Identifying causality 1.6. Recognizing emergency situation 1.7. Monitoring vital signs and State of consciousness 1.8. Obtaining history of the event. 1.9. Selecting, Using, Maintaining and Storing safety Equipment in emergency Unit Two: Providing first aid service	

- 2.1. Causality level of consciousness and communication style
- 2.2. Clinical equipment required for client management
- 2.3. Applying basic rules of ABCDE life

Unit Three: Preparing, evaluating and acting in an emergency

- 3.1. Options for action and group control strategies in cases of emergency Hazards and risks
- 3.2. Occupational health / safety policies, procedures and safe working practices
- 3.3. Removing clients and other individuals from danger
- 3.4. Assessing, evaluating, reporting and documenting potential hazards

Unit Four: Communicating Details of the incident

- 4.1. Soughing first aid assistance
- 4.2. Requesting ambulance support and medical assistance
- 4.3. Observation of casualty's condition and management activities
- 4.4. Details of casualty's physical condition, management
- 4.5. Confidentiality of records and information

Unit Five: Referring Client Requiring Further Care

- 5.1. Documenting relevant client history
- 5.2. Documentation for Referral procedure
- 5.3. Conveying appropriate information to individuals involved in referral
- 5.4. Maintaining client care confidentiality during referral

Unit Six- Evaluating own performance Feedback

- 6.1. Appropriate clinical expert feedback
- 6.2. The possible psychological impacts on rescuers.
- 6.3. Participation in debriefing and evaluation

Learning Methods:

- Interactive lecture
- Group discussion
- Demonstration
- Group assignment
- Individual assignment

Assessment Methods: Continuous 70%, Final 30%

- Continuous assessments (quiz, assignment, tests etc.).
- Oral questioning
- Skill check out
- Final written exam

Assessment Criteria

Unit One:- Assess and identify client's condition Basic concept of first aid

- Define terms
- Explain basic principles of first aid
- Assessing and Minimizing hazards
- Minimizing risk
- Identify causality
- Recognize emergency situation
- Monitor vital signs and State of consciousness
- Obtain history of the event.
- Select, use, Maintain and Store safety Equipment in emergency

Unit Two: Providing first aid service

- Describe causality level of consciousness and communication style
- Identify clinical equipment required for client management
- Apply basic rules of ABCDE life

Unit Three: Preparing, evaluating and acting in an emergency

- Explain options for action and group control strategies in cases of emergency Hazards and risks
- Understand occupational health / safety policies, procedures and safe working practices
- Explain about removing clients and other individuals from danger
- Assess, evaluate, report and document potential hazards

Unit Four: Communicating Details of the incident

- Explain seeking first aid assistance
- Describe requesting ambulance support and medical assistance
- Describe observation of casualty's condition and management activities
- Explain details of casualty's physical condition, management
- Maintain confidentiality of records and information

Unit Five: Referring Client Requiring Further Care

- Document relevant client history
- Explain documentation for Referral procedure
- Convey appropriate information to individuals involved in referral
- Maintain client care confidentiality during referral

Unit Six- Evaluating own performance Feedback

- Collect clinical expert feedback
- Describe the possible psychological impacts on rescuers.
- Explain about participation in debriefing and evaluation

LEARNING MODULE 12

TVET-PROGRAMME TITLE: **Nursing Level III**

MODULE TITLE: **Performing Community Mobilization and Provide Health Education**

MODULE CODE: **HLT NUR3 M12 0122**

NOMINAL DURATION: **120 Hours**

MODULE DESCRIPTION: This module aims to provide the trainees with the knowledge, skills and right attitudes attitude required to undertake health education, advocacy and community mobilization on identified health issues.

LEARNING OUTCOMES

At the end of the module the learner will be able to

- Conduct health education and communication
- Train model families
- Plan and Undertake advocacy on identified health issues

MODULE CONTENTS:

Unit One: health education and communication

- 1.1. Concept of health and health education
 - 1.1.1. Introduction to Health education and Communication
 - 1.1.2. Definition of terms
 - 1.1.3. Concepts and principles of health education and communications
- 1.2. Performing assessment and identify gaps
 - 1.2.1. Assessment techniques
- 1.3. Organizing community and all available resources
 - 1.3.1. Community organizations
 - 1.3.2. Available resources
- 1.4. Identifying target group
- 1.5. Preparing health education plan.
 - 1.5.1. Planning health education program
 - 1.5.2. Planning process
- 1.6. Designing methods and approaches of health communication
 - 1.6.1. Health education methods

- 1.6.2. Health education approaches
- 1.6.3. Health education materials
- 1.6.4. Effective communication skills
- 1.7. Providing health education service
- 1.8. Monitoring of service utilization and evaluation of behavioral change
 - 1.8.1. Health education models
 - 1.8.2. Monitoring of service utilization
 - 1.8.3. Evaluation of behavior change
- 1.9. Developing, promoting, implementing and reviewing strategies for internal and external dissemination of information
 - 1.9.1. Disseminate relevant information
 - 1.9.2. Relevant, policies and regulations
- 1.10. Maintaining work related network and relationship.
- 1.11. Approaches to meet communication needs

Unit Two: Training of model families

- 2.1. Identifying better performing households
- 2.2. Establish space and time for training
- 2.3. Identifying and collecting resources for training
- 2.4. Providing training according to MOH guidelines
- 2.5. Provide post training follow up and monitoring
- 2.6. Evaluating and certifying well performing model households

Unit Three: Undertaking advocacy on identified health issues

- Preparing advocacy plan to address health issues
 - 3.1.1. Stages of advocacy
 - 3.1.2. Advocacy tools and approaches
 - 3.1.3. Principles of effective advocacy
- Consult community representatives health needs and priorities
- Identifying and consulting influential community representatives and health development armies to disseminate IEC-BCC activities
- Planning, implementation and evaluation of advocacy and community mobilization
- Organizing and providing continuous advocacy services in partnership with stakeholders
- Using feedback for planning

TEACHING METHODS:

- Lecture and discussion
- Role play
- Group discussions
- Individual assignments
- Demonstration
- Field visit

ASSESSMENTMETHODS:

Competence may be accessed through:

- Written exam/test
- Questioning
- Demonstration and observation
- Direct observation of tasks(real or simulated practice) using checklist
- Review of tasks (portfolio, logbook, report, assignment...)

Assessment criteria

LO1: Conduct health education and communication

Unit One: health education and communication

- Describe concept of health and health education
 - ✓ Health education and Communication
 - ✓ Definition of terms
 - ✓ Concepts and principles of health education and communications
- Perform assessment and identify gaps
 - ✓ Assessment techniques
- Organize community and all available resources
 - ✓ Community organizations
 - ✓ Available resources
- Identifying target group
- Prepare health education plan.
- Design methods and approaches of health communication
 - ✓ Health education methods
 - ✓ Health education approaches
 - ✓ Health education materials
 - ✓ Effective communication skills
- Provide health education service
- Explain monitoring of service utilization and evaluation of behavioral change
 - ✓ Health education models
 - ✓ Monitoring of service utilization
 - ✓ Evaluation of behavior change
- Describe on developing, promoting, implementing and reviewing strategies for internal and external dissemination of information
 - ✓ Disseminate relevant information
 - ✓ Relevant, policies and regulations

Unit Two: Training of model families

- Identify better performing households
- Establish space and time for training
- Identify and collect resources for training

- Provide training according to MOH guidelines
- Provide post training follow up and monitoring
- Evaluate and certify well performing model households

Unit Three: Undertaking advocacy on identified health issues

- Explain about preparing advocacy plan to address health issues
 - ✓ Stages of advocacy
 - ✓ Advocacy tools and approaches
 - ✓ Principles of effective advocacy
- Consult community representatives health needs and priorities
- Identify and consult influential community representatives and health development armies to disseminate IEC-BCC activities
- Plan, implement and evaluate advocacy and community mobilization
- Organize and provide continuous advocacy services in partnership with stakeholders
- Use feedback for planning

LEARNING MODULE -13

TVET-PROGRAMME TITLE: **Nursing -Level III**

MODULE TITLE: **Applying basic health statistics and health survey**

MODULE CODE: **HLTNUR3 M13 0122**

NOMINAL DURATION: **80hrs**

MODULE DESCRIPTION: This module aims to describe knowledge, skills and attitude required to apply basic health statistics and health survey methods to improve community health related activities

LEARNING OUTCOMES

At the end of the module the learner will be able to:

- Prepare for the application of health survey
- Undertake data collection
- Compile, interpret and utilize health data
- Prepare and submit reports
- Take intervention measures accordingly

MODULE CONTENTS:

Unit One: Preparing for the application of health survey

- 1.1. Definitions of terms
- 1.2. Characteristics of health statistics
- 1.3. Scales of measurement
- 1.4. Basic principles of health statistics
- 1.5. Measurement of health
- 1.6. Basic principles of health survey

Unit Two: Undertaking data collection

- 2.1 Introduction to data collection
- 2.2 Planning for data collection
- 2.3 Questionnaires
- 2.4 Training personnel on data collection

- 2.5 Necessary equipment/material for data collection
- 2.6 Informing member of community about data collection
- 2.7 Inviting community leaders to support data collection process

Unit Three: Compiling, interpreting and utilizing health data

- 3.1. Introduction to Health data collection
- 3.2. **selection of the method of data collection**
- 3.3. Data organization
- 3.4. Data analysis
- 3.5. Data interpretation, presentation and utilization
- 3.6. Data confidentiality
- 3.7. Health data utilization

Unit Four: Preparing and submitting reports

- 4.1. Recording and reporting
- 4.2. Reporting formats
- 4.3. Reporting times
- 4.4. Health management information system/HMIS/

Unit Five: taking intervention measures accordingly

- 5.1. Discussion with key stakeholders regarding the health problems
- 5.2. Feedback
- 5.3. Making contributions to the health problem of the community

Learning Methods:

- Interactive lecture
- Group discussion
- Group assignment
- Individual assignment

Assessment Methods: Continuous 70%, Final 30%

- Continuous assessments (quiz, assignment, tests etc.).
- Oral questioning
- Final written exam

Assessment Criteria

Unit One: Preparing for the application of health survey

- Define terms
- Describe characteristics of health statistics
- Explain scales of measurement
- Describe basic principles of health statistics
- Explain measurement of health
- Describe basic principles of health survey

Unit Two: Undertaking data collection

- Describe data collection
- Plan for data collection
- Prepare questionnaires
- Train personnel on data collection
- Collect necessary equipment/material for data collection
- Inform member of community about data collection
- Invite community leaders to support data collection process

Unit Three: Compiling, interpreting and utilizing health data

- Explain Health data collection
- **Describe methods of data collection**
- Clarify data organization
- Explain about data analysis
- Understand data interpretation, presentation and utilization
- Maintain data confidentiality
- Utilize health data

Unit Four: Preparing and submitting reports

- 4.1. Describe recording and reporting
- 4.2. Utilize reporting formats
- 4.3. Recognize reporting times
- 4.4. Describe health management information system/HMIS/

Unit Five: Taking intervention measures accordingly

- Identify and discuss with key stakeholders regarding the health problems
- Collect Feedback
- Find Solutions to the health problems of the community

LEARNING MODULE 14

TVET-PROGRAMME TITLE: **Nursing Level III**

MODULE TITLE: **Applying 5S procedures**

MODULE CODE: [HLT NUR3 M14 0122](#)

NOMINAL DURATION: **32** Hours

MODULE DESCRIPTION: This unit covers knowledge, skills and attitudes required to apply 5S procedures and other standards set by 5S in work place..

LEARNING OUTCOMES

At the end of the module the learner will be able to:

- Develop understanding of quality system
- Sort needed items from unneeded

- Identify situations where compliance to standards is unlikely and take actions specified in procedures
- Inspect work area regularly for compliance to specified standard
- Recommend improvements to lift the level of compliance in the workplace

3. Resource Requirements

Item No.	Category/Item	Description/ Specifications	Quantity	Recommended Ratio (Item: Learner)
A.	<i>Learning Materials</i>			
1.	TTLM	Prepare by Teacher	1	1:25
2.	Textbooks		25	1:1
3.	Reference Books		5	1:5
3.1.	Journals/Publication/Magazines		5	1:5
B.	<i>Learning Facilities & Infrastructure</i>			
1.	Lecture Room	5*5m	1	1:25
2.	Library	Standard		
3.	White board		1	1:25
4	Demonstration Room			
C.	<i>Consumable Materials</i>			
1.	Paper	A4	5rim	1:5
2	Pen	Standard		
3.	Pencil and rubber	Standard		
4.	Graph paper	Standard		
5	Bucher paper	Standard	10	1:3
6	Marker	Standard	12 per pack	1:1
7	Printer ink	Standard	4	1:1
8	White board marker	Standard	15	
9	Plaster	Standard		
10	Antiseptic solution	Standard		
11	Adhesive Plaster	Standard	5	1:5
12	Role Bandage	Standard	5	1:5
13	Syringes	Standard		
14	IV Cannula	Standard		

15	Medication (PO, IM, SC, IV, Topical, ID)			
16	Disposable glove	Standard	5	1:1
D.	Tools and Equipment's			
1.	Doll		4	1:5
2	Computer	Lap top	1	1:25
3	LCD projector	LCD Projector	1	1:25
4	Printer	Laser Jet	1	1: 25
5	Glove	plastic	25 each	1:1
6	Eye glass	plastic	25 each	1:1
7	Helmet	plastic	25 each	1:1
8	Safety Shoe	Rubber soul	25 each	1:1
9	Waste segregation box for re use	wooden	1	1:25
10	Waste segregation box for disposal	wooden	1	1:25
11	Personal protective equipment	Standard	each	
12	Bed	Standard	5	1:5
13	Linen	Standard	5	1:5
14	Blanket	Standard	5	1:5
15	Bed spread	Standard	5	1:5
16	Makin tosh	Standard	5	1:5
